GERMANY'S STRENGTH.

In throwing nearly a million soldiers into the forthcoming army maneuvers, German military leaders see a design on the part of the kaiser to impress the world with the fighting strength of Germany.

Following the record breaking naval maneuvers of England, in the North sea, the sending of the American fleet on a cruise around the world, the closer allinace betweed England and Russia, and Russia and France, and the loss of German prestige by the unexpected turn affairs have taken in Turkey, Emperior William plans the greatest peaceful demonstration by the German troops that the world has ever seen. Critics are already assailing the emperor for the needless expense of such a gigantic maneuver. Nearly three hundred thousand men are to be taken from the reserves and added to the peace army of 626,346 in the fall movements.

There are many imitations of DeWitt's Carbolized Witch Hazel Salve but just one original. Sold by W. F. Creighton & Co.

JAPAN'S NAVY.

According to a tabulation by the German Navy League, made public yesterday, Japan will be the third strongest naval power in the world in 1911, being surpassed only by England and the United States.

The mikado will have at his command at that time, the report says, 17 battleships, with a total tonnage of 262,200; 16 large cruisers, with a tonnage of 179,900; with the possibility of four additional battleships of 38,200 tonnage and five cruisers of 92,500 tons, that have been provided for.

This tremendous growth in naval power will send Japan ahead of France and Germany.

DeWitt's Kidney and Bladder Pills will promptly relieve all Kidney and Bladder disorders. Sold and recommended by W. F. Creighton & Co.

LIZARD SIXTY FEET LONG.

Imagine the sensation of feeling a lizard about 60 feet long and 33 feet high, weighing about 15 tons, crawling up your frame and grinning at you through teeth four feet long.

Any person who thinks that the description of this dinosour of bygone days is a new "nature fake" can have his doubts removed by going to the Field Museum, Chicago, where Professor Riggs has his newest pet on exhibition. The specimen weighs nearly 10,000 pounds as it stands. The specimen is said to be the most complete in any museum in the world. It was discovered near Fruita, Col., in 1901, by Professor Riggs. It once crawled up and down the mountains of Colorado.

What is Best for Indigestion?

Mr. A. Robinson, of Drumquin, Ontario, has been troubled for years with indigestion, and recommends Chamberlain's Stomach and Liver Tablets as "the best medicine ever used." If troubled with indigestion or constipation give them a trial. They are certain to prove beneficial. They are easy to take and pleasant in effect. Price, 25 cents. Samples free at W. F. Creighton & Co. and Richard Gibson.

FORGETS HIS NAME.

Policeman Moore saw a man jumping in and about the bushes in Central Park, N. Y., yesterday and at times getting down on his knees and eating leaves and grass. He arrested him, and in the Yorkville Court Magistrate Moss sent the prisoner, who could not tell his name or address, to the Bellevue Hospital psychopathic ward.

The man wore nothing but a coat and a pair of trousers. Moore approached the man as he was on his knees eating grass. When he saw Moore the man jumped up like a jack-rabbit and darted to a clump of shrubbery, where he started to eat the leaves.

Moore succeeded in finally catching him. His hair had not been cut in months and his face and hands were black with dirt and from appearances he had not worn shoes in two or three weeks.

Questions in several foreign languages were put to him in court. He merely gave a blank stare at the questioners. Finally he said in broken English:

"I had a name, but I don't remember it."

HAND-SHAKE BREAKS ARM.

As the result of a vigorous handshake Jeremiah Berger, aged 60, is at the Delaware Hospital suffering with a broken arm. Berger is a powderworker for the DuPont Powder Company and lives at Henry Clay. A few days ago he met Patrick Dougherty, a hotel proprietor, and the two clasped hands in a hearty shake, as it was the first time they had met for several months. A few days later Berger's arm began to pain him. He went to the hospital to consult a physician, and was then told a bone had been broken. Berger declares he will be careful hereafter to whom he extends his hand in greeting.

LABOR UNION FOR GOMPERS.

The Central Labor Union of Indianapolis Ind., in which all the Labor Unions are represented, has adopted a resolution commending Samuel Gompers for his attitude toward the anti-injunction law, and it was mailed to him today.

The preamble declared that the enemies of organized labor had resorted to every effort to discredit the officers of the American Federation of Labor, and that "President Roosevelt, the highest executive in the land, has recently shown a greater contempt for the courts than has ever been shown by any officer of the American Federation of Labor or any member of organized labor." It concludes as follows:

"Resolved, That we, the delegates to the Central Labor Union of Indianapolis, Ind., commend the action of President Gompers and the executive council of the American Federation of Labor in the stand they have taken in defense of the rights of labor; and be it further

"Resolved, That we condemn the unjust attitude of certain judges of the courts in their unfair and unjust decisions rendered against the members of organized labor, and pledge ourselves to render any assistance in our power to carry out the policy as outlined by the executive council of the American Federation of Labor in their efforts to obtain justice for organized labor and the workingmen in general in the coming campaign."

MR. CORTELYOU'S theory about the non-existence of a deficit during the last fiscal year has not been applied to the July deficit of about $25,000,000; and it would be interesting to see whether his figure jugling could turn that deficit into a surplus. The deficit itself verifies the charges made at the end of the fiscal year that the deficit for the year was kept down to $60,000,000 by staving off till July as many payments as possible. It is evident now this postponement in the interests of a good showing for the year affected ten or twelve million dollars. Mr. Cortelyou's explanation, which was accepted without qualification by Candidate Taft, was in part that $33,000,000 had been spent in redeeming the public debt. Now, the statement of receipts and expenses which shows the deficit of $60,000,000 does not contain payments on account of the public debt, and furthermore, it was shown by the regular debt statements for the end of June, 1907 and 1908, that during the last fiscal year there was an increase of about $30,000,000 in the debt of every sort and a decrease of about $30,000,000 in the free cash in the treasury. The two items prove the verity of the deficitof $60,000,000.

IN REFERENCE to the recent decision in the Norfolk poll tax case, Mr. Carter Glass, of Lynchburg, who was a member of the convention which framed the new constitution, has written a letter in which he says:

I was among those who framed the article on suffrage as embodied in the new constitution of Virginia. I think the requirement that the poll tax shall be personally paid simply means that every man shall pay the tax with his own money and not with money furnished him by somebody else. The whole idea was to prevent corruption and I do not think any member of the convention who prepared or voted for the article on suffrage had the slightest idea that it could be regarded as corrupt for a person to give his check for the amount of his poll tax.

This is a common sense view of the matter and the one which is held by nine out of every ten men in the state.

AT HOT SPRINGS on Sunday Judge Taft's reply when granting audience to a number of newspaper men who had severally addressed him as "Mr. Secretary," "Governor," "Judge" and "Mr Taft," was, "Just call me Mr. Taft, and if you drop into colloquialism call me Bill." This was undignified in Mr. Taft and would be more so in the correspondents if they should take him literally. A candidate for the presidency should himself maintain the dignity which attaches to the position and require of others a recognition of it.

IN urging his doctrines of imperialism Judge Taft cheerfully states that the extra cost of military government of the Philippines is only $6,000,000 a year to the American people, all the rest of the cost being defrayed by taxation of the natives. But the candidate overlooks the fact that imperialism is costing an immense increase of the army and navy expenses of the government with no perceptible benefit to the American people.

From Washington.

[Correspondence of the Alexandria Gazette.]

Washington, Aug. 4.

An effort is to be made to save the white slave trade in Chicago. Attorneys for Alphonse and Eva Dufaure, indicted in that city by the federal grand jury on a charge of questionable character, who had been in this country less than three years, have appealed to the Supreme Court of the United States for their release from jail, pending trial. They allege that the immigration law which makes it a crime to harbor undesirable aliens is unconstitutional, inasmuch as the matter is wholly within the jurisdiction of the states, and not that of Congress. Judge Landis of Standard Oil fame, refused to grant the release.

Col. Hugh L. Scott, superintendent of the Military Academy at West Point, had a long conference with Secretary of War Wright, today, on the general subject of hazing, with particular reference to the cases of the eight cadets recently convicted of hazing, and the proper punishment to be meted out to them. It is probable that as one result of Col. Scott's visit to Washington, a statement will be issued, clearing up the confusion which has arisen over the question whether the president did or did not approve the sentence of dismissal of the young men from the academy. General Oliver, who was acting secretary last week, during Secretary Wright's absence, was authority for the statement that the papers came back from Oyster Bay bearing the president's approval of the order of dismissal. Both the president and Secretary Wright now state that no final action of any kind has been taken, and General Oliver has gone on his vacation. After the conference with Col. Scott, Secretary Wright this afternoon announced that he would issue order on the subject within the next forty-eight hours. Major General Bell, was in the conference, and, with Col. Scott, was insistent that the young men should be properly punished. It is not by any means certain that the cadets will not yet be dismissed.

TELEGRAPHIC BREVITIES.

Delcour S. Potter, a lawyer, who for many years has been prominent in state politics, died in Glen Falls, N. Y., today, aged 64.

Maurice F. Wilbere, president of the American Brewing Company, this city, died at Calen Hall, Atlantic City, today. He was a former magistrate and prominent democratic politician of Philadelphia.

Because his bicycle, to which he was strapped, broke while he was dashing down the "Whirl of Death," at a Coshocton, O., theatre, William Wilson, a legless acrobat, well known around the summer parks, died today.

Incendiaries burned eight buildings of the Church and Centre families of Shakers, at Mount Lebanon, N. Y., early today, causing a loss of $30,000. Horses, cattle, and farm stock were consumed and only a shift of wind saved the whole colony.

Governor Hughes denied at Saranac, N. Y., today, that he would run as an independent candidate for governor in case the republicans failed to nominate him next month. The governor would make no further comment upon the political situation.

In an address today at the opening of the International Free Trade Congress, in London, Lord Welby, president, admitted that the protection idea was growing throughout the world but he contended that free trade was right in principal and must eventually prevail.

E. H. Herriman, who is in Omaha today en route to his summer home at Pelican Lodge, Oregon, amazed Chicago officials when he passed through that town by calmly nolding up the Overland Limited, while he talked to Mrs. Alice Longworth, who was at the station.

At 10 o'clock this morning it was so hot in a building on Wabash avenue, Chicago, that the sun melted the wax and released the mechanism of a mercurial fire alarm, bringing half a dozen engines to the scene of a false alarm. The heat in the northwest is intense.

Gay with bunting and echoing to the music of many brass bands, Boston today is given over to the thousands of delegates and members of the Knights of Pythias gathered there in the 15th biennial encampment of the Supreme Lodge. Welcoming ceremonies began at 10 o'clock this morning.

Eighty seventy Hungarians, including two alleged Hungarian counts, were arraigned before a Homestead, Pa., magistrate, today with disorderly conduct. Seventeen others are in hospitals nursing broken heads and scalp wounds. A Hungarian ball was in progress in West Homestead, early today when a free for all fight started.

Amos Martin, 110 years old, veteran of three wars, who lived in three centuries, is dead at Newcastle, Pa., today. He had never been ill prior to the day of his death. Martin was born in Scotland in 1798. His first service was during the war of 1812. He also served through the Mexican and civil wars, being wounded at the second battle of Bull Run.

Telephone messages were received at Russellville, Ky., early today by Sheriff Tom Rhea from Allensville, and other points, that a mob of 150 men had been seen going in the direction of Russellville. It could not be told whether they were white or colored. Sheriff Rhea summoned all the citizens he could reach. One hundred were sent out to the home of Mrs. Cunningham, whose husband was killed by Browder, a negro, to guard her. It is believed the mob dispersed when it found an alarm had been given.

Joseph B. Horner, formerly a member of the firm of J. D. Horner & Co., straw hat manufacturers, of Baltimore, and for years a traveling salesman for a New York railroad supply firm, committed suicide by shooting himself in the head in his room at the Hotel Rennett Baltimore today. When found his body was nude. Among the effects of Horner was found a sealed letter addressed to his daughter, Mrs. H. Parmley, Westmoreland apartments, Washington Heights D. C. no motive is known.

Count Zeppelin started this morning on his third attempt to sail his airship for twenty-four hours without alighting. He made the assent at Lake Constance, near Berlin intending to follow the Schaffhausen-Basle course northwards along the Rhine. Five hours after the start, the big air craft was sighted over Strasburg. The airship passed over Mayence, at 2 o'clock this afternoon, having maintained a speed of 30 miles an hour for the nine hours. It was pointed in the direction of Metz.

The 26th annual Knights of Columbus National convention opened in St. Louis today. More than 10,000 visitors attended the opening session. A parade of delegates and the St. Louis councils starting in Forest Park, and ending at St Francis Xavier's church opened the day's programme. Pontifical high mass followed with Archbishop Glennon presiding and preaching. One of the important matters to be considered is the plan to raise a half million endowment fund for the Catholic University of Washington. The establishment of a woman's auxiliary may come up.

Miss Mary Ball, a school teacher, was shot and prehaps fatally wounded, near Demmette, N. C., Sunday night by D. F. Tharpe, because she refused to marry him on account of threats against her life Miss Ball was accompanied to church by her brother. At the close of the services Tharpe met both at the door and fired two shots at Miss Ball, one taking effect an inch above the heart. As she fell Miss Ball struck the pistol with her hand, causing the second shot to miss the intended mark. Her brother grappled with Tharpe and held him until friends came to his assistance. Tharpe was rushed to the jail at Wilkesboro.

Caught in an attempted robbery Hugo Sherman was shot dead early today, after a battle on the third floor of No. 445 Atlantic avenue, Brooklyn, by a detective who was lying in wait for an expected thief. The killing took place in the rooms of Leopold Weninger, who has been robbed three times within the last two weeks. It was almost dawn when Kelly sitting in the dark, saw the door open and a man in black underwear. To his shout, "Hands up," the intruder responded with a curse and a blow. For some minutes the men struggled, then Kelly fired and the robber dropped dead, shot over the right eye. Sherman had been a boarder on the second floor of the house.

Imprisoned for life in Sing Sing, N. Y., for the murder of William M. Rice, the New York millionaire, Albert T. Patrick today by letter had docketed in the Supreme Court of the United States, his appeal from the decision of the United States Court in New York, refusing to release him on habeas corpus proceedings. One of the grounds for an appeal is, that the governor of New York, "increased" Patrick's sentence by commuting it from electrocution to life imprisonment. Patrick is a member of the bar of the Supreme Court, and although he has been in prison for a number of years, he was able to comply remarkably well with all the rules of the court.

Today's Telegraphic News

The British Columbia Fires.

Vancouver, B. C., Aug. 4.—Looting by Slav miners, according to dispatches received here today, from Fernie, has caused a reign of terror over all the Kootenay valley where from two to three hundred lives have been lost and $10,000,000 damage has been wrought by the great fire which still is raging fiercely. To combat the expected activity of the ghouls martial law was early declared throughout the district and practically every gun in Crambrook and other nearby settlements has been sent into the burned area.

That the fire, which now is sweeping southward to the Montana line, is still doing damage where it originated is evident from the telegrams from Hosmer which say that the remaining buildings of that town and Michel have almost all been consumed by the flames which drove in upon both towns after it was believed all danger had passed. No details of any further fatalities are given and it is believed that few additional lives will be lost. At Nelson, where thousands of the victims are encamped in tents and brush shelters, the suffering has been lessened by the arrival of many relief trains which brought food and bedding. In other sections, however, great suffering still exists.

Just how many persons are dead is not known yet and probably will never be. The latest estimate for the whole stricken district is between two and three hundred. Many cases of where parties escaped with their lives only by standing for hours in the ice cold streams while the waves of flame rolled over head, are related, and instances where mothers welcomed death rather than leave their children to the fire, are not few. Many even of those who fled to the streams perished in the fierce heat. Those best acquainted with the burned district profess themselves unable to make any close estimate of the deaths.

Of the loss in property a slightly better estimate has been obtained but even that is unsatisfactory. It is generally agreed, however, that it will be not less than $10,000,000 and may be even greater.

The origin was a bush fire in "slashings" of the Cedar Valley Lumber Company across the river from Fernie.

Practically every insurance company in Canada is interested.

Fernie, B. C., August 4.—Amid the smoking embers of their homes and offices, with the great forest fire still roaring in the distance, the men of Fernie are clearing away the ruins, pitching tents, and announcing plans to build a new and better town where the hot ashes of old Fernie lie today.

Winnepeg, Manitoba, Aug. 4.—A dispatch received at noon from Crombrook states that the forest fire in the vicinity of Fernie, B. C., has been extinguished, and that the committee of safety is now restoring order. The dispatch says that not more than 15 persons are known to have been killed at Fernie, though several hundred prrsons are missing.

The Chicago Fire.

Chicago, Aug. 4.—The river wall of elevator F, which was destroyed by fire late yesterday, early today collapsed and fell into the river. The firebost Illinois, which was in the path of the falling wall, was sunk and three men were seriously injured.

The Illinois, with the firebost Dennis B. Swenie, had been fighting from the river side the fire which late yesterday caused $1,500,000 damage and destroyed five grain elevators, the Burlington dock freight house, 100 loaded freight cars and the cooling house of the American Refrigerator and Transit Company.

The elevators were Armour elevators, E and F—two other Armour elevators and the Union elevator.

Today, the heart of the fire still burned fiercely and a hundred firemen and two fireboats still remained on duty.

When the explosion in elevator F occurred and the wall tumbled over into the river, the Illinois made a vain attempt to get into mid stream, but was too late and the big pile of bricks and mortar sent the little craft to the bottom.

The fire swept almost clean the district between 12th and 16th streets and between State and Canal streets. It is believed to have been caused by an employe of the Burlington freight house throwing a lighted cigarette into chemicals in the building.

A high wind spread the fire with terrific rapidity and twice it leaped across the river and started for the city.

A Legless Bride.

Cincinnati, Aug. 4.—A young man carried in his arms to the county clerk's office in Newport, Ky., yesterday a legless young woman and applied for a marriage license. The pair gave their names as John B. Rapp, of Seattle, Wash., and Pearl Ruppel of Portland, Ind. They went from Cincinnati in a cab to the city across the Ohio river. When the man stepped from the cab in front of the court house with the young woman in his arms, he attracted a crowd. In the clerk's office he placed her on the counter while the document was being prepared, during which time she chatted merrily with her finance and had all the appearance of a happy bride. The young woman's legs were amputated as the result of a railroad accident. After procuring the license they went to a minister in Newport and were married.

Death of Mr. Potter.

Glens Falls, N. Y., Aug. 4.—Delcour S. Potter, a lawyer, who for many years has been prominent in state politics, died here today aged 64. Mr. Potter, who was a friend of Senator Platt, was formerly a member of the assembly and a judge of Saratoga county. He was United States commissioner up to the time of his death.

New York Stock Market.

New York, Aug. 4.—The stock market showed surprising strength all through the first hour with about a dozen stocks making new high records for the year. There was heavy covering of shorts in all the active issues, coupled with manipulation in a number of the specialties that kept prices moving upward in the face of renewed heavy profit taking sales.

Persistent and aggressive buying continued in the stock market all through the forenoon and new high prices for the year were continually reached.

War of Minstrels.

New York, Aug. 4.—A war of minstrals promises to fill the place in the public attention occupied last season by the vaudeville warfare. Last night George M. Cohan broke into the blackface field when he launched the "Honey Boy Minstrel's," on Broadway, with George Evans starred. Lined up in the first part and the olio were a number of the recognized burnt cork stars.

It is said that as a result of the invasion of their ranks by an outsider, Lew Dockstader and the other old timers will make a fight on the new organization, and induce some of the musical comedy stars to forsake that line of work for burnt cork.

Mob After Prisoner.

Richmond, Aug. 4.—Six policemen early this morning faced a mob of 100 men in this city following the shooting of Jacob L. Hechler by Royal L. Ellerson in the home of the prisoner.

Hechler charged that Ellerson was making advances to Mrs. Hechler, and Ellerson fired three shots at Hechler, all of which took effect. The man is in a hospital in a serious condition. Ellerson is in jail.

The mob was composed of neighbors of Hechler and tried to lynch Ellerson for invading his home. The quickness of the officers saved the man, several attempts being made to shoot Ellerson.

Earthquake.

Tangier, Aug. 4.—News of a destructive earthquake in the province of Constantine, in the northeastern-most part of Algeria, has just reached this city. The details are as yet very meagre, the information simply being that several towns were destroyed. No statement regarding the loss of life has been received, but it is feared that there have been scores of deaths.

VIRGINIA LAWYERS.

The annual meeting of the Virginia Bar Association began at Hot Springs last night and will continue until Thursday night. All the standing committees met at 8:30 o'clock. The first regular session was called to order this morning by John Garland Pollard, of Richmond, chairman of the executive committee, after which Wyndham R. Meredith, of Richmond, president of the association, delivered an address on "Federal Control of Interstate Commerce."

Many of the members of the association called upon Secretary Taft yesterday to pay their respects. There is lively interest among the legal fraternity there in the election of officers to be held tomorrow. Among those prominently mentioned for the presidency to succeed Mr. Meredith are Marshall McCormick, of Berryville; J. C. Bullitt, of Big Stone Gap, and Tate Irving, of the same place.

Tonight Armistead C. Gordon, of Staunton, will read a paper on "The Legal Foundations of Socialism."

Tomorrow the annual address will be delivered by Judge William Lindsay, former U. S. senator from Kentucky, on "The Man and the Corporation;" which will be followed by a paper by Holmes Conrad, of Winchester, on "The Old Virginia County Court; Its Place in History."

FROM ROME.

Though the question of the San Francisco coadjutorship was presented to the pope last week by Cardinal Gibbons, and again yesterday by Archbishop Farley, no decision has as yet been reached. It was reported yesterday that the claims of the Rev. Dr. Edward J. Hanna were strongly urged by both the divines. Reports of the modernist tendencies of Father Hanna have reached the pope and these may stand in the way of his selection.

Archbishop Farley headed a delegation of 21 American priests and 180 lay pilgrims in his visit to the vatican. He carried with him the Peter's pence of the New York archdiocese and received the pope's apostolic benediction for the clergy and laity of New York.

The reception to the archbishop and the American pilgrims was one of the most cordial ever accorded by the pope.

DISCRIMINATION CHARGED.

Discrimination against Washington in the matter of passenger rates to and from that city, as compared particularly with rates from Alexandria to other points within Virginia, was the subject of a meeting of the executive committee of the Washington Chamber of Commerce yesterday.

Special attention was given to the difference in the rates charged from Washington to Virginia points, and the rates charged from Alexandria to the same points.

It is understood that the committee will endeavor to find measures whereby the discrimation may be removed.

The whole matter arises from the law fixing a two cent. per mile rate in Virginia which law, however, does not apply when purchasing tickets to or from Washington.

VIRGINIA LEADS ALL BUT TEXAS.

Reports to the controller of currency, under call asking for the condition of national banks at the close of business July 15, 1908, shows the following:

Number national banks in Virginia, 105; loans and discounts, $63,951 420,75; capital stock paid in $12 586,950; individual deposits $55,798,917,68; percentage of legal reserve to deposits, 17.46.

Reports from all the States are not in, but it is believed the total banking capital of Virginia exceeds that of any other southern State except Texas.

Declaring his financial bill only "a temporary measure to prevent panics, which will be superseded by legislation establishing a comprehensive monetary system," Senator Aldrich sailed from New York today for Europe. He was accompanied by Senators Hale and Daniel and others. They compose a committee of the national monetary commission which will study finances of various European countries and will report to Congress in September.

Diarrhoea Cured.

"My father has for years been troubled with diarrhoea, and tried every means possible to effect a cure, without avail," writes John H. Zirkle, of Philippi, W. Va. "He saw Chamberlain's Colic, Cholera and Diarrhoea Remedy advertised in the Philippi Republican and decided to try it. The result is one bottle cured him and he has not suffered with the disease for eighteen months. Before taking this remedy he was a constant sufferer. He is now sound and well, and although sixty years old, can do as much work as a young man." Sold by W. F. Creighton & Richard Gibson.

DEMOCRATIC CONFERENCE.

Norman E. Mack, democratic national chairman; W. J. Conners, state chairman, and Charles F. Murphy, of Tammany Hall, held a conference in the Holland House in New York yesterday, which practically settled the part the national committee would play in the state campaign. While they talked, Col. Henry Watterson, Senator Daniel, of Virginia, and Senator Pettigrew, of South Dakota, were in the corridor. After an hour's conference Mack said that Mr. Murphy had said what he thought should be done.

"I agreed," he said; "then I told what I thought should be done. Murphy agreed. There was no mention of the name of John B. Stanchfield or anyone else for the governorship."

"Mr. Bryan," said Mr. Mack, "will probably come to New York the middle September. I hope to persuade him to speak three times in the state, once in Buffalo, once in New York city, and once at some up-state point. He will probably also visit New England while in the east."

Senator Daniel was asked if he was going to take an active part in the national campaign.

"I'm sailing for Europe this week," said the Senator, as he stepped into the elevator. Then, with a backward glance over his shoulder, he added:

"Oh, yes; I shall take an active part in the campaign—when I return from Europe."

A Faithful Friend.

"I have used Chamberlain's Colic, Cholera and Diarrhoea Remedy since it was first introduced to the public in 1872, and have never found one instance where a cure was not speedily effected by its use. I have been a commercial traveler for eighteen years, and never start out on a trip without this, my faithful friend," says H. S. Nichols of Oakland, Iod. Ter. When a man has used a remedy for thirty-five years he know its value and is competent to speak of it. For sale by W. F. Creighton & Co. and Richard Gibson.

MARRIAGE OF JUDGE NICOL.

At Warrenton at noon yesterday Mrs. Florence de Ossac Nash, of that town was married to Judge C. E Nicol, of Manassas, the wedding taking place at the home of the bride. The only two attendants were Mr. Holzman, of Washington who was the best man, and Miss Jane Forbes, of Warrenton. The marriage ceremony was first performed by Rev. Father Patrick, of the Catholic Church, of which the bride is a member, and then by Rev. Mr. Clark, of the Baptist Church, of Manassas, the groom being an active member of the latter church.

The bride was dressed in point applique, with a magnificent pearl necklace about her neck. Immediately after the ceremony a reception was given on the lawn of the bride's home, to which a large number of their intimate friends were invited. Elaborate refreshments were served by Rauscher, of Washington. The cottage was artistically decorated in white hydrangeas and ferns. Only a few relatives and the closest friends of the bridal couple witnessed the ceremony.

In the afternoon Judge and Mrs. Nicol drove to Calverton, where they boarded a train for Hot Springs, at which place they will spend the week, while the judge is in attendance at the Virginia Bar Association meeting, which is being held there this week. The bride is a well-known society woman of Warrenton and has, in the ten years that she has lived there, made numerous friends. She is a native of Charleston, S. C., and belongs to an old Huguenot family. Judge Nicol is prominent throughout this section of the state, and is well and favorably known in this city where he spends most of his time. He is president of the Alexandria National Bank, one of our strong financial institutions. A host of friends here wish him abundant success and happiness. Judge and Mrs. Nicol, on their return from their wedding trip, will make their home in Manassas.

FIRST BALLOON FLIGHT TODAY.

As stated yesterday Captain Baldwin did not make his first preliminary flight in his dirigible airship yesterday afternoon as he had expected, but he did transport his balloon safely from the shop where he has been assembling, a mile across Fort Myer to the aerodrome, where it was housed, and whence he expects to make a flight this afternoon. The transporting of the machine was a bigger undertaking than flying in it will be. Captain Baldwin regards his troubles as all over now. He feels so certain that this machine will work successfully in every way and that it will easily make 23 miles an hour instead of the 20 miles specified in the contract, that he said yesterday afternoon he would probably notify the board of judges that he would be ready for the official trial today.

About 5 o'clock Captain Baldwin, with a note of triumph in his voice, announced to the crowd that had gathered in the shop and in front of it that he was about to test the machinery, and that everybody must get out of the way. The forward end, with the 20-foot-long propeller was rested on a sawhorse, and the motor started up.

Both Captain Baldwin and Mr. Curtis felt satisfied that the motor would do all that was expected, and word was given to weigh anchor and start for the ground, about a mile away. Here the tests are to be made and here Captain Baldwin expects to make his first flight this afternoon.

The parade ground of the fort was packed with people yesterday.

SLIGHT FIRE.

What would have been a dangerous fire was averted by the foresight and cool-headed action of Miss Blanche Purvis, a guest at the house of Mrs. Lee, 1111 Prince street. About 2.15 this morning a lamp exploded in a room where all the occupants, including a young baby were asleep. Neighbors across the street were awakened by shrieking cries and ran to the assistance. When they arrived they discovered that the young lady mentioned above had heroically worked and with the assistance of a young blind man, Mr. Frank Goodrich, who, knew the premises, had removed the windows, and had almost subdued the flames. Many articles were damaged and Mr. Frank Goodrich was slightly burned about the arms. The fire department was not called into service.

DEBT COLLECTORS.

Quite an amusing scene was enacted on south Royal street on Sunday evening last when an agent in his earnestness to collect a debt created a great deal of excitement and attracted a large crowd. Threats of choking, black eyes, etc., finally had the effect of persuading the young man to give up his coin and the crowd dispensed without having witnessed an altercation.

The service closed with "Lead Kindly Light," by Miss Green, Mrs. Ludwig and Mr. Horace B. Ramey. The interment was at Arlington, and through the courtesy of the officers of the W., A. and Mt V. Ry., the funeral party was conveyed in a special car direct to the gates at Arlington. The pallbearers were Messrs. M. S. Faunce, J. Frank Carlin, R. T. Strickland, F. W. Pilling, Ervin Ludwig and Horace B. Ramey. At the grave "Nearer My God To Thee" was sung by Miss Green, Mrs. Ludwig, Mr. Jeffers and Mr. Ramey. The funeral of the little daughter of Mr. E. L. Cornwell, of West End, took place this evening.

POLICE COURT.

[Justice Julius Pelton presiding.]

The following cases were disposed of this morning:

With a dignity becoming the high office of police justice and with a determination tempered with kindness Justice Pelton heard the cases in this court this morning and disposed of them in double quick order.

The first case called was that of Susie Johnston, arrested by Officer Sampson for selling liquor without a license. She forfeited $50 collateral.

Eva Stanton, colored, arrested by Officer Sampson for disorderly conduct, was fined $5.

Edward Morris and Harvey Lunsford, arrested by Chief Goods, and Officers Ferguson and Roberts, on suspicion of stealing a barrel of whisky belonging to Joel M. Cochran & Co.; case continued 10 days.

FERRY CONTRACTS SBEDULE

Under the navigation laws of the United States all vessels in service over thirteen hours per day are required to carry a double crew in pilot house and engine room. The ferry steamer Lackawanna, running between this city and Washington, has been running a portion of an hour over the thirteen-hour period. Under the law she has been obliged to carry the additional men on her crew. To save this expense the schedule of the steamer has been changed somewhat, so that her day's work can be completed within the thirteen hours, and the extra men in her crew have been laid off. Some changes have also been made in the office force at both this city and Washington, so that the operating expenses of the ferry each month have been reduced considerably.

A HANDSOME STORE.

Located at the northeast corner of Pitt and Cameron streets is one of the handsomest stores in the city of Alexandria. It is the business house of Mr. John Lannon and is one of the oldest established groceries in this city. Catering to the wishes of an immense trade he has everything seasonable in one of the neatest kept stores in this city. In connection with his grocery business he conducts a feed department, which is generously patronized by the surrounding counties. Polite and courteous treatment on the part of his employees has gained for him a business second to none in this city.

CONVICTING EVIDENCE.

Edward Morris and Harvey Lunsford were before Justice Pelton this morning on suspicion of stealing a barrel of whisky belonging to Joel M. Cochran & Co., from the Potomac yards above this city. When arraigned in the police court this morning they were non-communicative, but when the chief announced that he had convicting evidence against them Justice Pelton committed them for ten days. Chief Goods and Officers Roberts and Ferguson have worked hard on this case and deserve credit, and its culmination may bring to light many acts of rascality not as yet known to the police department.

EXCITEMENT ON FAIRFAX STREET.

Some excitement was caused about 10:30 last night by a negro who chased a number of white children along the lower part of Fairfax street. This has happened several times lately and the police are on the lookout for the guilty one. Officers Sampson and Beach appeared but the negro had escaped.

MOVING PICTURES.

At the Alexandria Amusement Company tonight there will be exhibited an interesting show, two new reels being used in addition to those of last night. "A Family of Cats" and "The Arabian Dagger" are the changes and are pronounced excellent.

At the Opera House the greatest wooden shoe dancers will perform and it is one of the best shows in the business.

LEE CAMP.

The monthly meeting of Lee Camp, Confederate Veterans, was held last night. Considerable routine business was transacted and two members were elected—John H. Morgan, of the third company, Richmond Howitzers, and John H. Ballamy, Albemarle Rifles (Co. A), 19th Virginia.

THE WEATHER.

Today has been one of the most oppressive of the summer. The mercury at 3 o'clock this evening registered 94°, but the humidity in the atmosphere made the heat seem more intense.

Take Kodol whenever you feel that you need it. That is the only time you need to take Kodol. Just when you need it; then you will not be troubled with sour stomach, belching, gas on the stomach, etc. Sold by W. F. Creighton & Co.

Since Bishop Brent's second declination to accept the bishopric of Washington has been received by officials of the Episcopal diocese of Washington, it is regarded by prominent churchmen in Washington as a reasonable certainty that Rev. Dr. Randolph McKim, rector of the Church of the Epiphany, of that city, will succeed Bishop Satterlee. Rev. Dr. McKim was once rector of Christ Church, this city.

AN OLD VAULT.

Located within 100 yards of the water's edge on the farm of Mr. J. H. Stamp, in Maryland, opposite this city, is a vault over 130 years old. The top has been broken and the bones and skull of at least a dozen people can be seen. It is almost hid by underbrush and the place is seldom frequented. This vault contains what remains of the Rozier family, some of the old pioneers of Maryland, who were buried there in 1790.

[COMMUNICATED.

HORSES AT LARGE.

A little child was run over in the northwestern part of the city on Sunday evening and serjously injured by a horse which was running at large on the streets. There is a city ordinance covering such cases but it appears to be a dead letter so far as the police are concerned. In the southeastern section of the city it is safe to say that there is hardly a day in the year in which horses and cows do not roam the streets at will, but those whose duty it is to look after such matters fail to see them. Some of the police must wear goggles.

GENERAL COMPLAINT.

Many complaints are registered against the Southern Railway engines which run up and down Henry street all day and all hours of the night with the cylinders and olow pipes open making a dreadful noise which keep the residents along this thoroughfare awake. The contrast is made with the engines which run on Henry street, as they make no noise at all.

Granulated Sore Eyes Cured.

"For twenty years I suffered from a bad case of granulated sore eyes, says Martin Boyd of Henrietta, Ky. "In February, 1903, a gentleman asked me to try Chamberlain's Salve. I bought one box and used about two-thirds of it and my eyes have not given me any trouble since." This salve is for sale by W. F. Creighton and Co., and Richard Gibson.

An episode similar to that of Sunday night in Berkley and South Norfolk, when several sailors were shot and wounded by negroes, occurred yesterday near the same locality, when Charles Campbell, of Portsmouth, was shot and wounded by a negro. After a struggle Campbell managed to reach his row boat, where he was assisted by several sailors of the navy. He was carried aboard the cruiser North Carolina, lying at the navy yard, by the sailors, and there received medical attention. The Berkley police are congratulating themselves that they did not have a lynching Sunday night.

What He Did Know.

St. Thomas' Episcopal church, in Fifth avenue, has under its jurisdiction an east side chapel. One of the features of the chapel is a gymnasium, in which boys are trained in all of the branches of physical culture. Some of the boys are quicker in this sort of training than they are in the more polite talk of the west side boys.

The rector of St. Thomas', the Rev Dr. Stires, visits the chapel frequently and is fond of talking with the lads about their work. He said to one little fellow who hails from near the East river:

"Well, my son, they tell me you won quite a victory in your last contest with the boys of a rival school."

"I don't know 'bout that, but w'en we went up ag'in dat bunch from St. Pat's we put it all over 'em, and dey ain't never peeped since."—New York Sun.

The Ugliest Beast.

Probably the ugliest beast in the world is a monkey, a grewsome looking animal called the bearded saki. This is so utterly grotesque a beast that it would scarcely be safe to let a child or nervous person see it. The ugliness is not of an amusing kind, but of an evil, sinister nature. The beast has a sort of beard and a countenance unlike anything else in shape and lines. The monkey itself is not particularly savage, but is so hideous that the natives of its country, South America, say that no beast of prey, however hungry, will tackle it. Even a hungry jaguar will starve in a cageful of sakis.

Missed a Chance.

"But, Tommy," said his mother, "you asked for two cakes and I gave them to you. Aren't you satisfied?"

"No, I ain't," growled Tommy. "You was so easy I'm kickin' meself now 'cause I didn't ask fur four."—Philadelphia Press.

Driven to Drink.

Artist—My next picture at the academy will be entitled "Driven to Drink." His Friend—Ah, some powerful portrayal of baffled passion, I suppose? Artist—Oh, no; it's a horse approaching a water trough!

No Heredity About It.

Gerald—My father was an old salt. Geraldine—That's funny. You are a young fresh.

A covetous man makes no friends.—Cingalese Proverb.

The Artless Red Indian.

The influence of the fur trader and the mission schools has had a marked effect upon the Ontario Indians. They have to a large extent adopted modern dress, and many of the young men can be found at work in the sawmills and as river drivers. The women, too, manage to keep step with their lords in this march toward civilized appearance. I have seen moccasined feet peeping from beneath the folds of velvet gowns of royal purple. On the bank of Rainy river I came upon a community of wigwams and tepees. About an open fire crouched three old hags, filthy and hideous, but in the door of a tepee not ten feet away stood a young squaw, perhaps a daughter of one of the hags, doing her hair with a curling iron.—Wide World Magazine.

Some Meteors.

One of the earliest known meteors fell in 204 B. C. in Phrygia, where for a long time it was worshiped. It was carried to Rome and was supposed to be a messenger from the gods. Livy describes a shower of meteoric stones. The people were greatly alarmed, and the senators were demoralized and declared a nine days' festival to propitiate the gods. There is at Mecca a meteorite which fell in 600 A. D. and is still worshiped by the faithful.

Sacrificed to the Nile.

The ancient Egyptians, if they did not worship the river Nile, held it in great veneration and even dread. The Nile had its appointed priests, festivals and sacrifices, and if its rising was delayed for a single day a beautiful young girl was thrown into its waters and drowned in order to appease the god's anger and secure his favors.

Waiting.

Jack—By the way, how is your suit with Miss Cashleigh progressing? Tom—Slowly. I'm playing a waiting game just now. Jack—A waiting game? Tom—Yes; I'm waiting for her to change her mind.

Punishment.

"Pop!"

"Yes, my son."

"Did mamma ever punish you?"

"Well, she married me, my boy."—Yonkers Statesman.

Chronic Diarrhoea Relieved.

Mr. Edward E. Henry, with the United States Express Co., Chicago, writes, "Our General Superintendent, Mr. Quick, handed me a bottle of Chamberlain's Colic, Cholera and Diarrhoea Remedy some time ago to check an attack of the old chronic diarrhoea. I have used it since that time and cured many on our trains who have been sick. I am an old soldier who served with Butherford B. Hayes and William McKinley four years in the 23rd Ohio Regiment, and have no ailment except chronic diarrhoea, which this remedy stops at once." For sale by W. F. Creighton & Co. and Richard Gibson.

How Long Do Dreams Last?

How long do dreams last? A German savant is investigating the matter. But there is scarcely a doit who could not give him points and has not dreamed centuries in seconds. The dream, it may be stated, comes in the few seconds before the awakening and has no relation to time or space. This is clear enough to the man who has ever been placed under an anaesthetic for a short while and found time and space eliminated.

As an experiment this writer was placed under a whiff of chloroform by a doctor. Absolute unconsciousness supervened, then a return of consciousness, the questions of the universe, up through layers of consciousness, with always the feeling, "Now I have solved it," and the "No" and the "Yes" alternating through centuries of thought, and then the quizzical face of the doctor, remembered after a million years. "How long have you been under?" The experimenter struggled up and saw the doctor with his watch in hand. "Ten seconds," the doctor said, and the dreamer had been outside time for a time that has no measure.—London Chronicle.

A Great Artist Enraged.

Alma-Tadema has told a story of the fate of two unsuccessful pictures of his student days. One of them was returned unsold by the committee of the Brussels exhibition in 1859. The subject was a house on fire, with people rescuing the victims. The artist's fellow students were asked into Alma-Tadema's studio and were invited to jump through the canvas, the owner of it leading the way by leaping head first through the oily flames.

The other unsuccessful effort was a large sized square picture that came back again and again to its creator's easel until at last it was cut out of its frame and given to an old woman to use as a table cover.

The picture was praised by at least one person who appreciated its excellence, so Alma-Tadema used to declare, for the old woman was wont to remark that it was much better than those common oilcloth things that always let the water through, as the picture of Alma-Tadema's making was a good thick one, with plenty of paint on it.—Minneapolis Journal.

The Supposed Life on Mars.

Not only do the observations we have scanned lead us to the conclusion that Mars at this moment is inhabited, but they land us at the further one that these denizens are of an order whose acquaintance was worth the making. Whether we ever shall come to converse with them in any more instant way is a question upon which science at present has no data to decide. More important to us is the fact that they exist, made all the more interesting by their precedence of us in the path of evolution. Their presence certainly ousts us from any unique or self centered position in the solar system, but so with the world did the Copernican system the Ptolemaic, and the world survived this deposing change. So may man. To all who have a cosmo-planetary breadth of view it cannot but be pregnant to contemplate extra mundane life and to realize that we have warrant for believing that such life now inhabits the planet Mars.—Professor Lowell in Century.
